PETITION FOR RETROACTIVE LICENSE

The Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

RECEIVED
FEB 15 2002
Technology Center 2100

Sir:

Petition is hereby made for a retroactive foreign filing license under 37 C.F.R. 5.25.

- 1) Material in the present U.S. Patent Application was filed only in Canada.
- 2) Material of the present application was filed in Canada on December 12, 2000,
and is not yet published.
- 3) The required verified statement (Oath or Declaration) is enclosed.
- 4) The required fee of Rule 1.17 (h) of \$130 is enclosed.

As further demonstration that the foreign filing was in error and without deceptive intent,
note that this Petition itself brings the matter to the Commissioner's attention.

Note that the subject matter of the present application relates to sales of automobiles by
automobile dealers, and hence would not fall under the secrecy provisions for national security
of 35 U.S.C.181. However, out of an abundance of caution, this Petition is filed.

This Canada application was filed in error without deceptive intent. This filing error was due to a clerical error. Routinely, the international filing formalities department of this law firm checks all proposed foreign applications for all formal requirements, including that a foreign filing license has been obtained prior to foreign filing, and delays any foreign applications for which a license has yet to be received, until the license is received. In this case, the proposed Canada filing was received by the undersigned from the international department of this law firm, for transmittal to Canada, with no indication that the foreign filing license had not been received. The undersigned then caused the file to be transmitted to Canada, prior to discovery that the foreign filing license had not been received, believing that this was proper, and this was done without deceptive intent.

The facts above are within my personal knowledge.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 18 day of January, 2001.

VERIFIED STATEMENT PURSUANT TO 37 C.F.R. 5.25

The Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

This statement is filed in support of the attached Petition for Retroactive License.

The undersigned is the attorney of record for the present application.

The subject matter of the present patent application was not under a secrecy order at the time that it was filed abroad, in Canada only, that is December 12, 2000, and it is not currently under a secrecy order.

This retroactive foreign filing is diligently sought after discovery that the Canada application was filed before a foreign filing license was received. In January 2001 we reviewed the foreign application file and the domestic application file in a routine check of the status of the matter. At this point, it was first discovered that foreign filing license had not yet been received. The drafting of the attached Petition was initiated and filed shortly thereafter. We also note that the time of filing of this Petition is only about one month from the foreign filing, and well before any foreign publication, and hence is inherently very diligent.

Title: LOYALTY LINK METHOD AND APPARATUS FOR INTEGRATING CUSTOMER I
NFORMATION WITH DEALER MANAGEMENT INFORMATION

In view of the communication(s) filed March 1, 2001, it has been determined that a retroactive license for foreign filing under 35 U.S.C. 184 be granted with respect to the filings listed below. The petition complies with 37 C.F.R. 5.25 in that there is an adequate showing that the subject matter in question was not under secrecy order, that the license was diligently sought after discovery of the proscribed foreign filing, and that the material was filed abroad without the required license under 37 C.F.R. 5.11 first having been obtained through error and without deceptive intent.
